Summary

As a versatile and dedicated full stack developer, I bring a wealth of knowledge and experience in creating robust, scalable web applications. My technical expertise spans across multiple programming languages and frameworks, including the MERN stack (MongoDB, Express.js, React, Node.js), Java, and Python.

In addition to my web development skills, I am proficient in using Git and GitHub for version control and collaboration, and I leverage Docker for containerization to streamline development and deployment processes. My passion for technology extends to the field of machine learning, where I am continuously expanding my knowledge and applying data-driven techniques to solve complex problems.

Experience

Listyaan Learning	May 2023 - December 2023
Intern	Remote

🔗 https://testseries.listyaan.com/

As an intern i had to solve different coding problems and give solutions of them along with recording all in real time.

Education
